

HMO BASIC 25

SUMMARY OF BENEFITS

With Tufts Health Plan's HMO (health maintenance organization) plan, you enjoy comprehensive coverage for your health care needs, while your out-of-pocket costs are kept to a minimum.

In general, preventive and medically necessary health care services and supplies are covered when they are provided or authorized by your network primary care physician (PCP).

As an HMO member:

- You must choose a PCP from the Tufts Health Plan network of providers.
- In most cases, your PCP must provide or authorize (provide a referral for) your care.
- You pay the applicable copayment at the time you receive covered health care services. There are annual maximums on the number or amount of copayments you pay for day surgery and inpatient care. Please check this benefit summary for more information.

HMO members do not need a PCP referral for certain types of covered services, including:

- Maternity care and medically necessary evaluations and related health care services for acute/emergency gynecologic conditions, when these services are provided by an obstetrician, gynecologist, certified nurse midwife, or family practitioner in the Tufts Health Plan network
- Routine gynecologic exams and any medically necessary OB/GYN follow-up care resulting from that exam, when obtained from a provider in the Tufts Health Plan network
- Emergency care in an emergency room or a physician's office
- Mammography screening, when obtained from a provider in the Tufts Health Plan network
- One routine eye exam every 24 months, when provided by a network physician, if your plan offers this benefit

This health plan **meets Minimum Creditable Coverage standards** and **will satisfy** the individual mandate that you have health insurance. Please see the Disclosure of Minimum Creditable Coverage flyer included in the enrollment kit for additional information.
